MOTION PICTURES

The Motion Picture Service, Office of Information, U. S. Department of Agriculture, produces and distributes motion pictures on subjects with which the Department is concerned. They are both sound and silent and are released in 16-mm. and 35-mm. widths. Films in the 16-mm. size are available from State film libraries; 35-mm. films are available only from Motion Picture Service. They are lent for educational purposes to groups and organizations or may be purchased outright. Prints of Department films may be obtained from 73 cooperating film libraries in the 48 States, the District of Columbia, and the Territories of Alaska, Hawaii, and Puerto Rico.

RURAL COMMUNITY DEFENSE. 16-mm., sound, black and white; running time, 13½ minutes. Released 1958.

We can't hope the danger of the H-bomb will go away. It is one of the major facts of our time. We have no choice but as a nation, a community, as an individual, to plan for survival in the event of enemy attack. If war should come, farmers will play a crucial role in providing America with life-sustaining food, fiber and shelter. What can be done about it? This film shows that farm families can plan NOW for survival—by cooperating with neighbors to develop community survival plans and by preparing to meet emergencies. TV use permitted. (Available for loan from all cooperating film libraries. Inquire of Motion Picture Service for purchase information.)
